

PUBLIC INFORMATIONAL MEETING

Project ID 4992-00-56
County LP
US 10/WIS 114 – County AP
Calumet County
November 2, 2016

Welcome to the public informational meeting to discuss the reconstruction of County LP from US 10/WIS114 – County AP. The intent of the meeting is to provide information about the proposed project and to receive input from you in regards to the project.

This meeting will begin at 5:00 p.m. with a short formal presentation that will be held explaining the project, after which you can view the project displays and ask representatives from Ayres Associates or the Calumet County Highway Department any questions.

Attached to this handout is a sheet for your written comments and concerns about this project. Please use this to write down your comments and either deposit them in the comment box or send them to us at the address on the comment sheet.

1. PROJECT PURPOSE AND NEED

The pavement along County LP, between US 10/STH 114 and County AP, is in poor condition, and has reached its service life. Traffic along this corridor has been increasing with the development of the surrounding area, resulting in operational and safety concerns. In addition, there is a need for bicycle and pedestrian accommodations, along this corridor.

2. PROPOSED IMPROVEMENT

The proposed roadway will consist of a two-lane urban cross section with bike and pedestrian accommodations that includes the following:

- Two-way left turn lane
- Roundabout at County LP and Manitowoc Road
- New storm sewer, a recreational trail on the west side of County LP, and sidewalk on the east side

3. TRAFFIC CONTROL

During construction of the project the area will remain open to local residents, businesses and emergency vehicles only.

4. RIGHT OF WAY

Right-of-way will need to be acquired in some areas of the proposed road reconstruction. In addition, temporary limited easements may be acquired for matching back slopes and/or driveways to your property.

5. PROJECT SCHEDULE

Purchase R/W
Complete Plans
Construction

Fall 2017
May, 2018
Summer 2019

6. PUBLIC COMMENTS

We encourage you to talk to the engineers and ask them any questions you may have. We also ask you to contribute any information or comments that you may have that will help us in the development of the project.

If you have any additional questions or need information in the future, you may contact any of the people listed below:
