NOTICE TO EMPLOYERS

It may be a violation of state law to discriminate against a job applicant because of an arrest or conviction record. Generally speaking, an employer may refuse to hire an applicant on the basis of a conviction record only if the circumstances of the offense for which the applicant was convicted substantially relate to the circumstances of the particular job. For more information, see [Statute 111.335](#) and the Department of Workforce Development's publication, Arrest and Conviction Records Under the Law.

Before you make a final decision adverse to an applicant based on the following arrest record, in addition to any other opportunity you offer the applicant to explain the following arrest record, please notify the applicant of:

1. His or her right to challenge the accuracy and completeness of any information contained in a arrest record, and
2. The process for submitting a challenge

The applicant should submit his or her challenge to CIB on Form DJ-LE-247. Form DJ-LE-247 is available free of charge on [The Department of Justice website](#) or by calling (608) 266-7314. A challenge may include a request for comparison of the fingerprints of the person submitting the challenge to the fingerprints on file that are associated with the Wisconsin arrest record below.

NO RECORD FOUND

An arrest record search based only on a name, date of birth, and other identifying data that is not unique to a particular person (like "sex" or "race") may result in:

1. Identification of criminal history records for multiple persons as potential matches for the identifying data submitted, or
2. Identification of an arrest history record belonging to a person whose identifying information is similar in some way to the identifying data that was submitted to be searched, but is not the same person whose identifying data was submitted for searching. The Crime Information Bureau (CIB) therefore cannot guarantee that the response below pertains to the person in whom you are interested without a fingerprint submission.

Based on the above identifying data provided for this search, no matching Wisconsin arrest records were found at this time. These search results do not preclude an individual from having an arrest record at a local law enforcement agency that was not reported to the Department of Justice or in another state, or juvenile records that are confidential by law. The results of this search are effective and current for the date of this search only. A new search should be submitted if an updated response is needed at a later time.

VILLAGE BOARD MEETING

VILLAGE OF HARRISON

From:

Mark J. Mommaerts, AICP, Planner

Date:

July 26, 2016

Title:

Fence in Drainage Easement

Issue:

Should the Village allow a fence in the drainage easement at N9088 Blackoak Street?

Background and Additional Information:

The property owner at N9088 Blackoak Street is requesting permission to place fence within a drainage easement along the rear (east side) of the property. The property is Lot 36 of Oakwood Estates. There is a 20-foot drainage and utility easement along the east side of the property. The property owner wishes to install a 42” high decorative, open-type fence along the property line.

The zoning ordinance requires approval from the easement holder prior to issuance of a zoning permit for the fence. In this case, WE Energies will have to grant approval for the utility easement and the Village Board must decide if a fence is allowed in the easement as it is also a drainage easement. Permission for a fence was granted to the property owner at N8936 Blackoak Street (Lot 59) in May 2015.

Budget/Financial Impact:

None

Recommended Action:

If approved, staff recommends a permission agreement be signed and recorded at the Register of Deeds.

Mr. Mommaerts,

We would like to ask that our request for a zoning variance be on the Village Board meeting Next week.

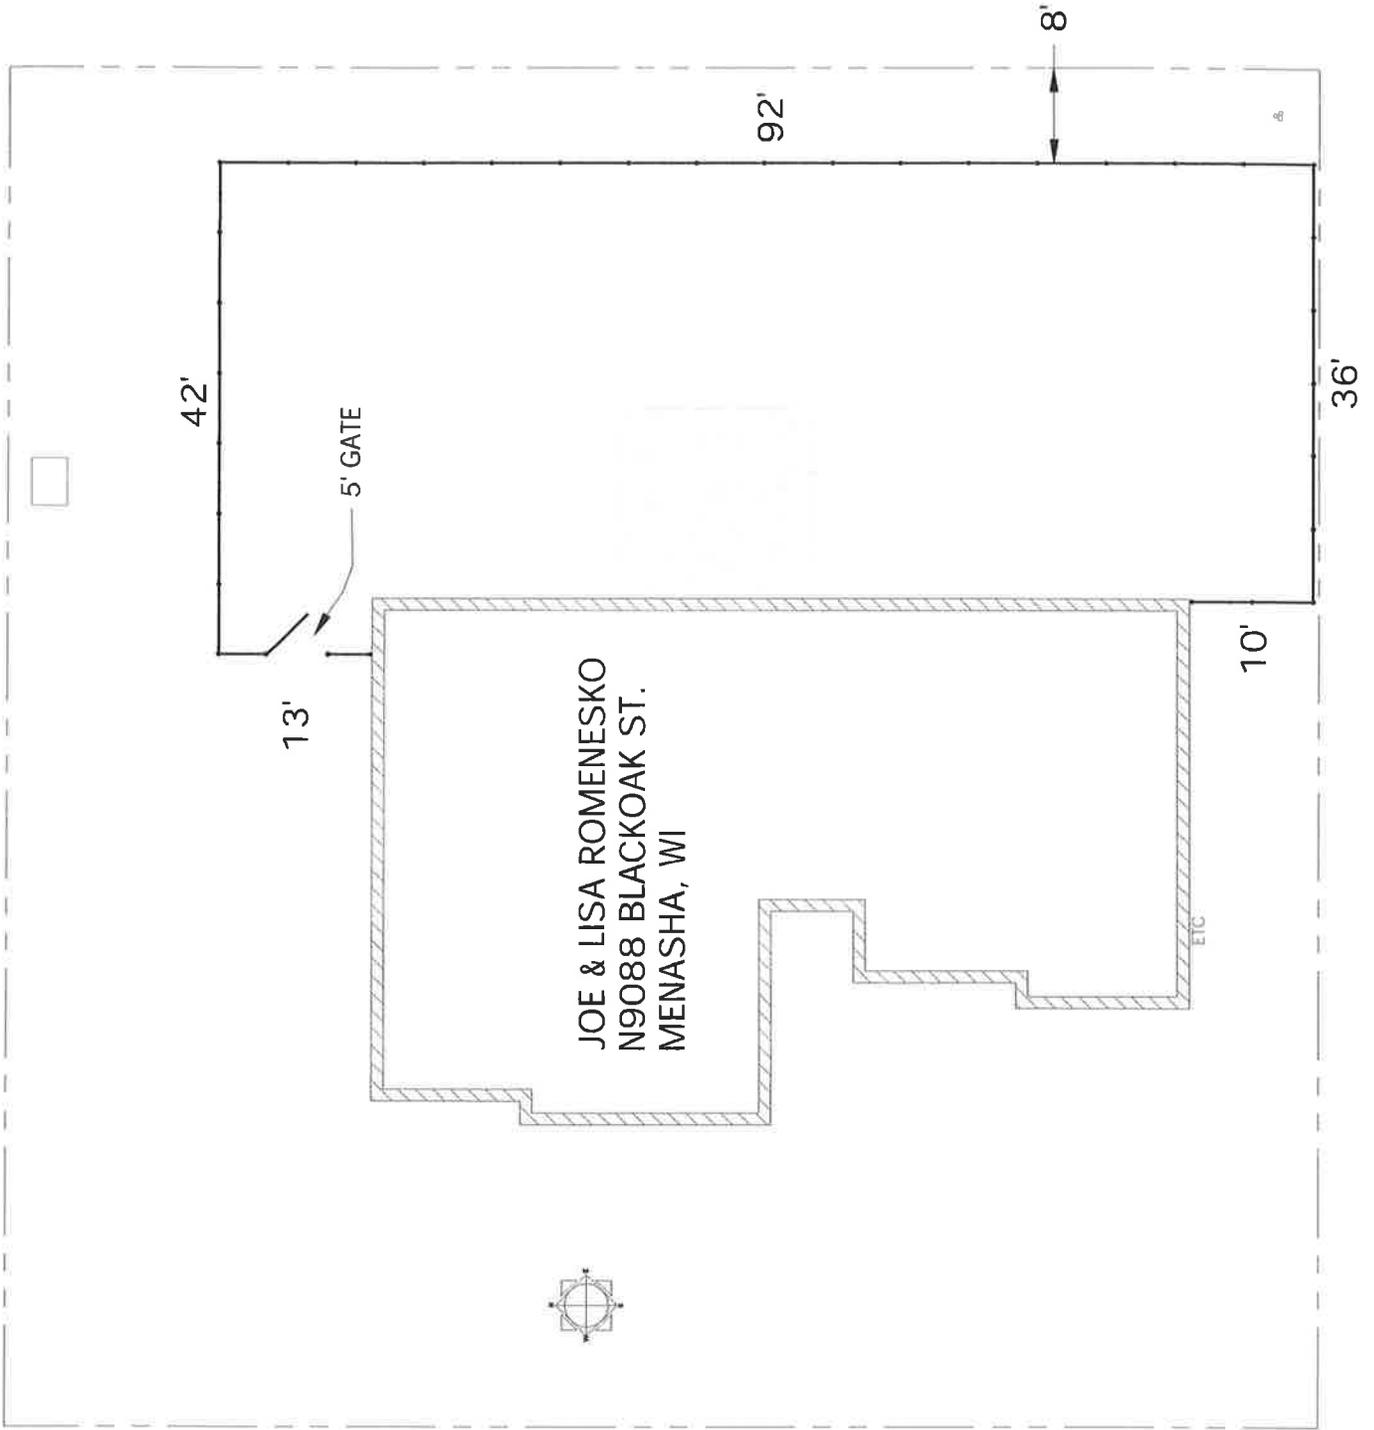

The attached plan details where we would like to place a decorative fence on our property which is lot #36 of Oakwood Estates. The plan indicates the fence would be located 10 feet off of the rear property line which is also a drainage ditch. Several points we would like to be considered are as follows:

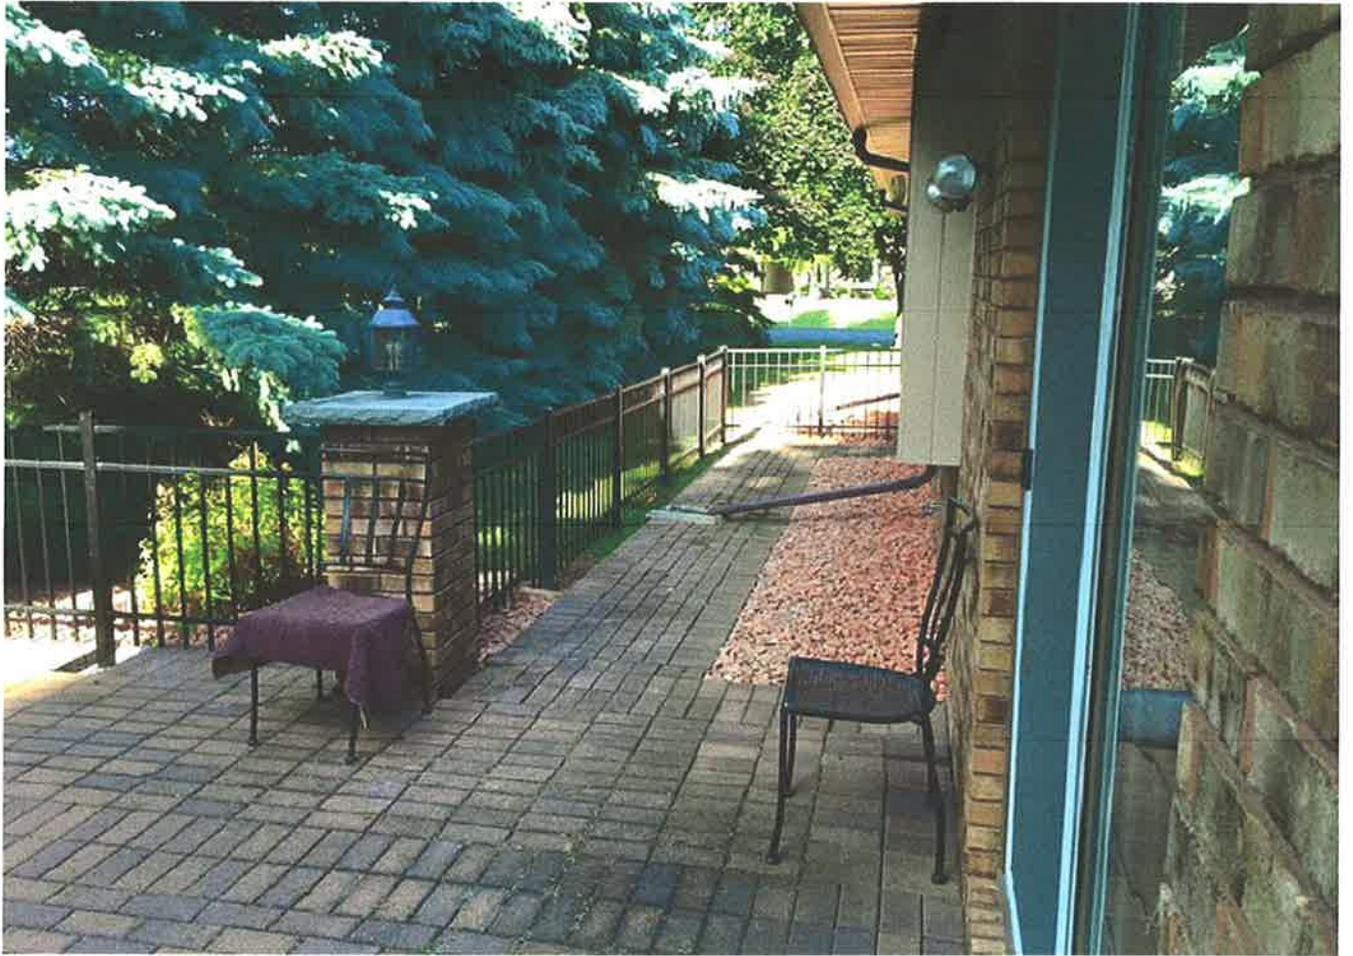

1. The fence would begin at the high point of this drainage ditch and flows south from that point.
2. The fence is an open black aluminum that would do little to impede any water in the event water ever rose to the level that it came to the fence.
3. The fence is constructed of aluminum and would be 42" high sections that would be kept 4 to 6 inches off the ground, all posts would be set in concrete. Installation would be done by a professional contractor
4. There are fences further to the south that are solid panel fences on this drainage line where the ditch is much deeper and they are placed within the easement area, one even crossing the ditch (although held several feet off the ground).

Thank you for your consideration and don't hesitate to contact us at (920) 205-1658

Sincerely,

Joe and Lisa Romenesko

This agreement is entered into by and between the Village of Harrison, Calumet & Outagamie Counties, hereinafter referred to as "Village" and Joseph & Lisa Romenesko, hereinafter referred to as "Owner", owners of property described as Lot 36, Oakwood Estates, being a part of Lot 1 Certified Survey Map No. 1493, as recorded in volume 10 of maps on page 193, and being part of the Northwest ¼ and the Southwest ¼ of the Southwest ¼ of Section 9, Township 20 North, Range 18 East, Village of Harrison, Calumet County, Wisconsin, located at N9088 Blackoak Street.

This agreement authorizes the Owner to place a fence, hereinafter referred to as "Improvement", within the recorded drainage easement on their property subject to the following provisions and/or conditions:

The Owner agrees that if the Village determines that stormwater runoff is impeded or obstructed at any time because of the Improvement, then the Village may order the Owner to remove such Improvement and return the property grades/elevations to that of the approved grading/drainage plan. If the Owner fails to comply, the Village may cause removal of the Improvement and shall place the cost on the property tax bill as a special assessment.
2. The Owner agrees to remove the Improvement upon reasonable notice from the Village that work needs to be completed within the easement area or that access needs to be obtained through the easement area.
3. In case of emergency, the Village may remove the Improvement without giving notice to the Owner.
4. The Village is not responsible for any damage done during removal.
5. The Village will not replace the Improvement for any reason or reimburse Owner for removal of Improvement.

Title:

Request to use amplification at Darboy Community Park

Issue:

Cheryl Van Grinsven requests that her son’s band be allowed to play at a graduation party at the park. Our Park Shelter Rental Policies prohibit a person from “using or operating a P.A. system, amplifier or device which increases the volume of voice, music, or other sounds so loud as to disturb the public peace or the quiet and peacefulness of the surrounding neighborhood” without approval.

Background and Additional Information:

This is a 4-person band. The instruments played are guitar, bass, and drums along with a vocalist. All of them attend Appleton Rock School and play family-friendly songs.

Attendance will range from 50-70 people.

The party is scheduled for August 27, 2016 and the band would play from 4:00-6:30pm.

Budget/Financial Impact:

None

Recommended Action:

Staff recommends approval of the request to use amplification at the Darboy Community Park.
